Professional Summary

Computer Science student at Universidad del Valle de Guatemala with experience developing full-stack web applications, REST APIs, database systems, and containerized solutions.

Skilled in Node.js, TypeScript, React, SQL, PostgreSQL, Docker, and Git. Experienced in collaborative software development projects involving authentication, database security, API development, and modern web technologies.

Seeking opportunities in Backend Development, Full Stack Development, and Database Systems.

Technical Skills

Languages: JavaScript, TypeScript, SQL, Java

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Prisma ORM, Zod

Frontend: React, Next.js, HTML, CSS

Databases: PostgreSQL, MySQL, Database Design, Stored Procedures, Triggers

Tools: Git, GitHub, Docker, Docker Compose

Projects

SWAP – Student Marketplace and Academic Services Platform

- Developed and maintained backend services using Node.js, Express, and TypeScript.
- Implemented authentication and authorization workflows using JWT and bcrypt.
- Created validation schemas with Zod and contributed to frontend-backend integration.
- Implemented features including publication saving, likes, and pinned posts.
- Collaborated in a team environment using MVC architecture, Repository pattern, Docker, and Git.

Inventory and Sales Management System

- Developed a full-stack inventory and sales management application with database security controls.
- Implemented role-based access control using database roles and granular permissions.
- Developed stored procedures, transactions, exception handling, and ORM-based CRUD operations.

- Containerized the complete application environment using Docker Compose.

Game Tracker REST API

- Developed a RESTful API supporting CRUD operations through GET, POST, PUT, and DELETE endpoints.
- Implemented server-side validation, HTTP status handling, and CORS configuration.
- Containerized the application using Docker and Docker Compose.

Education

Universidad del Valle de Guatemala (UVG)
B.S. in Computer Science Engineering
January 2024 – Expected December 2028

Experience

24/7.ai
Customer Service Representative — Aug 2023 – Dec 2023

- Assisted Citibank customers with credit card account inquiries and issue resolution.
- Developed communication, problem-solving, and teamwork skills.
